

Warranty: 24 month after commissioning, latest 26 months after delivery

We guarantee the use of faultless material. After commissioning we guarantee the free of charge delivery of parts which failed due to faulty materials, faulty design or which can not be used due to improper performance.

We keep this guarantee promise for a time schedule of 26 months after the product was delivered to the customer site.

Wear parts and parts which will be destroyed by non-careful handling or due to faulty operation are excluded of warranty. Warranty does not cover transportation, shipping, travelling and waiting expenses.

For replacement, repairs, spare parts and other warranty issues during the period of warranty a 24 months warranty is applied on exchanged parts.

The warranty is valid for parts delivered by the OEM supplier, only. Moreover the warranty is valid for damages of equipment caused directly by parts which were mounted into the equipment by the supplier.

Note: There is no liability for damages which were caused by consequences!

The purchaser has to inform the supplier according occurred damages immediately.

The supplier guarantees that all components are designed for 24 hours operation time per day at a minimum of 50% duty ratio (spray time).
